

# "Straight from the heart"

A Traditional Country Music CD

by

**Perry Acorn**

Like many people in the music industry, Perry Acorn would go to sleep as a child and dream of performing on stage. His roots were always country, spending countless hours listening to the greats like George Jones, Merle Haggard, Buck Owens, and Ray Price.

Perry recalls rushing home from school, having a bite to eat, then going into his room. There, he would learn to play the songs he holds close to his heart to this day. He played his first professional job at the age of Thirteen, and has been performing and writing songs ever since.

From the smallest honky-tonks to the most elite clubs, Perry's performances have always reflected his passion for traditional country music.

Perry has composed and published more than 200 songs and recorded some 37 on his own label. His songs are a reflection of his life. Some rough spots self-inflicted, others just the cards life dealt out. As a testimonial to his talents, Perry has received many awards, including 2004 Fan Choice Award, 2004 Band of the year, 2004 Song of the year for "Family Tree"

His new album "Straight from the heart" contains many strong and heartfelt songs, most of which were inspired by real life experiences. "Still Holding On" is a powerful, emotional song that will make you feel the tragedy of lost love. "Without You" reflects a lover's innermost feelings (and fears). Of course, no Perry Acorn recording would be complete without a few solid honky-tonk numbers, and they're here in "Family Tree", "She's Commin' Home With Me", and many more.

For people who share a love and appreciation of traditional country music " **this album is a must**"

CD release date : January 8 2007
